

Optoma HD82

OPTOMA HD82

Brief Introduction

Beta 2.5

The HD82 BrilliantColor DLP has 1300 Ansi-Lumen, a contrast of 20000:1 and a HDTV 1920 x 1080 resolution. The built-in lens shift function provides freedom when setting up. 366 cm image width, the projector will be able to illuminate well. However, if room light is available, the picture width should ideally not exceed 244 cm. It is also Full HD 1080P compatible. The operating noise of only 22 decibels makes the projection quiet. This model is no longer offered by Optoma, but is still very popular in our projector database.
