

Optoma WU515ST

OPTOMA WU515ST

Brief Introduction

Beta 2.5

The WU515ST 3D DLP has 5500 Ansi lumens, a contrast of 10000:1 and a WUXGA 1920 x 1200 resolution. The projector also offers a lens shift function that makes image adjustment childs play. The model offers a microphone jack plug and 10W speakers, so no additional audio devices are required for presentations or training courses. 753 cm picture width, the projector will be able to illuminate well. Rooms with residual light can be created by the projector with a smaller image width, we would recommend a maximum of 502 cm here. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. The model is also Full HD 1080P and 3D compatible. This model is no longer offered by Optoma.
