

Optoma X501

OPTOMA X501

With the X501, manufacturer Optoma offers a standard portable DLP projector with XGA 1024 x 768 resolution and a contrast of 15000:1. The integrated lens shift gives freedom when positioning the projector. The projector is equipped with a microphone jack plug and 15W speakers, so no additional speakers are required for presentations or training sessions. 4500 Ansi lumens ensure that a picture width of 584 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 389 cm. The model is also Full HD 1080P and 3D compatible. With only 27 decibels of operating noise, the model is already very quiet compared to others. It was launched in 2013 and is no longer offered by the manufacturer Optoma.

1 x 0,55" DC3 DLP Chip
XGA 4/3 Ti Digital Light Processing Chip
