

Optoma ZH507+

OPTOMA ZH507+

A brief introduction to the Optoma ZH507+. The DLP laser projector has an HDTV 1920 x 1080 resolution and a contrast of 300000:1. Thanks to the laser technology, the projector has a light life of up to 30,000 hours, which equates to over 20.5 years at 4 hours of use. The integrated media player can play files directly. The projector also offers a lens shift function for flexible projection adjustment without loss of quality. Thanks to the brightness of 5500 Ansi lumens, an image width of 753 cm is possible. The projector can also handle slightly brighter rooms with a narrower image width (we recommend max. 502 cm). The model is also compatible with Full HD 1080P and 4K (compressed) as well as 3D, meaning that all currently available Blu-ray formats can be recognized by the projector.

1 x DLP Chip
