OPTOMA ZK608TST

The Optoma model ZK608TST is a DLP laser projector with HDTV 1920 x 1080 resolution and a contrast of 300000:1. The manufacturer specifies a laser life of 30000 hours, which is over 20.5 years with a daily viewing time of 4 hours. The integrated lens shift gives freedom when positioning the projector. Thanks to the short throw projection ratio of just 0.58:1, the projector is not distracting in the room. For a 2m wide image, the projector only needs to be 116 cm away from the screen. As Optoma specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. The model is also Full HD 1080P and 3D compatible, and even has the option of projecting HD 1080P Blu-rays onto the ceiling using 360° projection.
