

Panasonic PT-EZ770Z /L

PANASONIC PT-EZ770Z /L

The stationary PT-EZ770Z /L LCD has 6500 Ansi-Lumen, a contrast of 5000:1 and a WUXGA 1920 x 1200 resolution. With the lens shift function, the projector can be positioned very freely. The projector can illuminate an image width of 819 cm well. The projector can manage rooms with residual light with a smaller image width, we recommend a maximum of 546 cm here. Playing 1080P is also no problem for the projector, which can even project Blu-rays onto the ceiling thanks to 360° projection. The projector was launched in 2013 and is no longer sold by the manufacturer, but is still a popular projector in our database.
