

Panasonic PT-FRQ60 WU/BU

PANASONIC PT-FRQ60 WU/BU

Black Models

The Panasonic PT-FRQ60 WU/BU laser DLP projector has 6000 Ansi lumens, a contrast of 20000:1 and a UHD (4K2K) 3840 x 2160 resolution. The service life is 20000 hours due to the laser, which is over 13.7 years with a daily viewing time of 4 hours. Including a lens shift function, which provides free space during installation. 787 cm image width, the projector will be able to illuminate well. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 525 cm here. Furthermore, the projector can play 1080P and 4K without any problems. Even projection onto the ceiling is possible thanks to the 360° projection. On the market since 2022, the model is no longer offered by the manufacturer Panasonic.
