

Panasonic PT L500

PANASONIC PT L500

The PT L500 LCD home cinema has 850 Ansi lumens, a contrast of 1300:1 and HDTV 1280 x 720 resolution. The lamp life is up to 5000 hours, which is over 6.8 years if enjoyed for two hours a day. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. Thanks to the brightness of 850 Ansi lumens, a picture width of 296 cm is possible. In room light, the image should be a maximum of 197 cm wide. At just 27 decibels, the device is one of the quieter projectors. It was launched in 2003 and is no longer offered by the manufacturer Panasonic.
