

Panasonic PT-MZ770 /E/U/J/L

PANASONIC PT-MZ770 /E/U/J/L

The stationary Panasonic PT-MZ770 /E/U/J/L laser LCD projector has 8000 Ansi lumens, a contrast of 3000000:1 and a WUXGA 1920 x 1200 resolution. Thanks to the laser technology, the projector has a light life of up to 20000 hours, which is equivalent to over 13.7 years at 4 hours per day. Including an integrated media player that allows files to be played directly. The projector also offers a lens shift function for flexible projection adjustment without loss of quality. An image width of up to 909 cm is possible as the projector has 8000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 606 cm. Furthermore, the projector can play 1080P without any problems and can even project Blu-rays onto the ceiling thanks to 360° projection. The model built in 2018 is no longer offered by Panasonic.
