

Peaceking Mini Beamer

A brief introduction to the mini projector: the Peaceking LED LCD projector offers 200 ANSI lumens, a contrast ratio of 1400:1 and HDTV 1920 x 1080 resolution. It is an LED projector with a 30,000-hour light lifespan, which is over 20.5 years of enjoyment at four hours a day. The integrated media player can play files directly. Since the projector has horizontal and vertical keystone correction, it can be set up anywhere in the room with plenty of space. The projector can easily illuminate images up to 144 cm wide with its 200 ANSI lumens. However, in a well-lit room, the image width should ideally be under 96 cm. Thanks to the built-in 2600mAh battery, no power supply is required, which means that the projector can be set up quickly and flexibly. The projector has Airplay, Miracast Screen Mirroring support, which makes it possible to play videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS directly via WLAN. Another extra feature is the Bluetooth function, which allows the projector to be connected to external wireless speakers. Video signals 1080P and 4K (compressed) are also no problem for the projector. Compared to others, the projector is very quiet with an operating noise of 25 decibels.
