BOXLIGHT Proudly Presents the XD-2m: The Much-Anticipated, Ultra-Portable Projector that Simplifies Taking the Show on the Road

A combination of great features, bright display, and a feather-light weight can make travelling presenters shine!

Poulsbo, WA- Attention traveling presenters: The solution for all of your presentation needs is here!

BOXLIGHT, the first name in digital projectors, is proud to announce the revolutionary XD-2m: An ultra-portable, 2.4-pound unit that has a footprint as small as its load. Easily packed away into a briefcase or small carry-on bag (with plenty of room left over for the all-important laptop), road warriors can avoid long airport check-in lines and the possibility that their precious presentation tools will be lost.

When duty calls, the XD-2m can deliver a striking performance everytime with razor-sharp true 1024 x 768 XGA resolution (compressed 1280 x 1024 SXGA) and1000 ANSI lumens, both of which help to ensure vibrant images and colors, even during a "lights on" presentation.

"There's only one word to describe the XD-2m: amazing," said Herb Myers, president & CEO of BOXLIGHT. "This little machine literally fits in the palm of my hand, but is bright enough to be the only projector a travelling presenter will need. Plus, the XD-2m comes complete with a number of high-end features and accessories, including a full mouse remote and soft carrying case. The XD-2m is the best option for the presenter on the go."

Other unique features include a customizable start-up screen, 16:9 compatible aspect ratio, digital keystone adjustment, a remote control with a full mouse and a built-in laser pointer, and multiple audio, video, and computer inputs. In addition, the XD-2m produces less than 34 dB of audible noise, so the presentation is what captures the audience's attention-not the hum of the fan.

XD-2m AT A GLANCE

- **2.4 pounds**: The XD-2m is a low-key traveling companion that is clearly carry-on friendly.
- **1000 ANSI lumens:** Bright enough to keep the lights on during the presentation.
- **1024 x 768 XGA resolution**: Crisp and clear images without having to change a laptop's settings.
- **Digital Keystone Adjustment**: Create a square image anywhere on the screen. Feature is accessible from either the remote or projector's console.
- **Less the 34 dB of audible noise**: Guarantees a whisper-quiet performance.
- **Dual analog and digital computer inputs**: Makes the XD-2m compatible with current and future technology.
- **Customizable start-up screen**: Make a great first impression.
- **Multiple audio, video (including S- and composite video) and computer inputs**: Create a multimedia extravaganza by connecting a multitude of imaging and sound devices.
- **Wireless remote**: With full mouse control and a built-in laser pointer, a presenter isn't tied down to one spot and has more control over the presentation.
- **Throw distance of 5' to 33'**: Be comfortable presenting in variable room conditions.
- **Additional features such as digital zoom imaging, freeze, mute, and blank-the-image mode**: Add polish and shine to a presentation.

BOXLIGHT is the first name in digital projectors with more experience and selection than anyone in the industry. Selling display and projection technology under its own brand of BOXLIGHT Certified, the company also offers the most innovative, high-quality products from InFocus, Hitachi, Sony, Proxima, and Epson.

BOXLIGHT offers one of the best service and support packages available with a 15-day money back guarantee, two-year parts and labor warranty and a 120-day or 500 hour (which ever comes first) lamp guarantee. This is coupled with lifetime 24-hour technical support, on all of its branded products, and a 30-day upgrade policy to ensure that each product precisely fits the needs of the customer.

Founded in 1985, BOXLIGHT operations have expanded to encompass sales in the United States, Canada, and worldwide. In addition, in conjunction with American Express Equipment Finance, the company also offers a convenient Web-based leasing program with low monthly payments, flexible terms, and purchase options.

Projector specifications, photographs, prices, and additional information regarding BOXLIGHT products and services are available on-line at www.boxlight.com or by calling 800-762-5757 (USA) or 360-770-7901 (International).
