BOXLIGHT Introduces Its New XP-60m Ultra-Portable Projector: Bright, Crisp Images and Quiet Operation Add Refinement to Budget-Conscious Presentations

Value-priced, full-featured LCD projector offers excellent XGA resolution, 1100 ANSI lumens and whisper-quiet operation in a lean 5.7 lb. package that's perfect for travel.

Poulsbo, WA. The presentation experts at BOXLIGHT understand the importance of creating a polished, professional image, even for those with modest equipment budgets. That's why BOXLIGHT is excited to announce its newest, portable XGA projector: **the XP-60m**.

BOXLIGHT'S XP-60m projector combines a ***travel-friendly, 5.7 lb. ultra-compact design*** and the highest quality ***XGA resolution*** in a unit that's ideal for cost-conscious presenters such as small businesses, road-warriors and educators. Priced at ***$3,899***,* this unit features ***true 1024 x 768 XGA resolution (compressed 1400 x 1050 SXGA+)*** for the crispest, clearest images straight from a computer.

The XP-60m shines as one of the brightest value-priced XGA projectors in its class. ***Micro lens array*** technology magnifies the light output from each pixel to create an impressive ***1100 ANSI lumens***. This brightness rating allows the XP-60m to conquer most lighting challenges, including "lights on" presentations.

For customers whose applications demand the quietest running projector, the XP-60m's ultra-hushed operation lends an air of refinement to speaking engagements. At ***less than 34dB***, the XP-60m is the quietest projector that BOXLIGHT sells.

Set-up and control of the projector during presentations is a breeze with an array of convenient features. The ***manual zoom lens*** makes it easy to get just the right-sized image to fill up the screen and the ***digital keystone adjustment*** on the remote control squares-up the image at the touch of a button.

By pressing the **"soft power" on/off button** on the remote, presenters can activate and shut down the projector from anywhere in the room. This feature is particularly useful in installations where the unit isn't readily accessible or when the presenter is roaming the stage or interacting with the audience.

A timesaving, single function ***programmable button*** on the remote enables presenters to quickly access a desired function via the remote instead of through the pull-down menu. For example, speakers can spotlight and digitally enhance an area of the screen by programming this key for the ***digital zoom imaging function***. Other programmable options include the ***freeze image***, ***mute sound*** and ***blank screen functions***, as well as the ability to ***change the output to a 16:9 aspect ratio***.

BOXLIGHT'S new XP-60m projector brings travel-sized convenience and superb XGA resolution to professional presenters with real-life budgets. Well-equipped, bright and very quiet, this powerful but 'soft-spoken' unit delivers image-enhancing features at a value price.

BOXLIGHT sells display and projection technology under it's own brand of **BOXLIGHT Certified**[tm] equipment, as well as the most innovative, high quality products from trusted brands such as InFocus, Hitachi, Sony, Proxima and Epson. The company also offers professional services to enhance every aspect of presentations from content development to the finishing touches. ***BOXLIGHT's Creative Services*** division can assist presenters in polishing existing presentations, animating company logos and developing full-blown professional presentations from scratch. BOXLIGHT's training division, ***BOXLIGHT Academy***, offers both onsite and online instruction in subjects such as making PowerPoint[tm] presentations and enlivening technical speaking engagements.

BOXLIGHT is one of the world's leading distributors of digital presentation equipment, presentation development services and training. With humble origins in a basement in 1985, BOXLIGHT operations have expanded to encompass sales in the United States, Canada and worldwide. The company has been listed in *Inc.* magazine as one of the ***"Fastest Growing Private Companies in America,"*** and one of the 500 fastest growing technology companies in the United States by Deloitte & Touche.

BOXLIGHT's award-winning projectors are consistently selected as among the ***"Best New Products of the Year"*** by some of the most influential computer and audio/visual publications in the nation. Projector specifications, photographs, prices and additional information regarding BOXLIGHT products and services are available online at www.BOXLIGHT.com, or call (800) 762-5757 (USA) or (360) 779-7901 (International).
