

# projectiondesign Action! model two

The projectiondesign Action! model two home cinema DLP projector has 1000 Ansi lumens, a contrast of 4000:1 and an HDTV 1280 x 720 resolution. The integrated lens shift gives freedom when positioning the projector. An image width of up to 321 cm is possible as the projector has 1000 Ansi lumens. However, if there is room light, the image should be a maximum of 214 cm wide. Furthermore, the projector can play 1080P without any problems. At just 28 decibels, the device is one of the quieter projectors. It was launched on the market in 2006 and is no longer offered by the manufacturer projectiondesign.

1 x HD2+ DC3 DLP Chip  
HDTV 16/9 Ti Digital Light Processing Chip
