

# projectiondesign F21

A brief introduction to the projectiondesign F21. The standard portable DLP projector has an HDTV 1920 x 1080 resolution and a contrast of 2500:1. The projector also offers a lens shift function, which makes setting up the image childs play. 3000 Ansi lumens ensure that a picture width of 556 cm is also possible. However, if room light is available, the picture should be a maximum of 371 cm wide. Playing 1080P is also no problem for the projector. With only 24 decibels of operating noise, the model is already very quiet compared to others. On the market since 2012, the model is no longer offered by the manufacturer projectiondesign.
