

projectiondesign F85 wuxga

Brief Introduction

Beta 2.5

With the F85 wuxga, manufacturer projectiondesign offers a DLP projector with WUXGA 1920 x 1200 resolution and a contrast of 15000:1. With the lens shift function, the projector can be positioned very freely. An image width of up to 1066 cm is possible as the projector has 11000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 711 cm. Furthermore, the projector can play 1080P without any problems. The model built in 2012 is no longer offered by projectiondesign, but is still very popular in our projector database.
