A brief introduction to the Promacto Pro X15. The micro-portable DLP LED projector has a WXGA 1280 x 800 resolution and a contrast of 20000:1. The service life of the LEDs is 30000 hours, which is over 20.5 years with a daily viewing time of 4 hours. An image width of up to 393 cm is possible as the projector has 1500 Ansi lumens. However, if room light is available, the picture should be a maximum of 262 cm wide. Thanks to the built-in 10400 mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. It is also Full HD 1080P compatible. This model is no longer offered by Promacto, but is still a very popular projector.
