

Proxima DP2400

PROXIMA DP2400

Brief Introduction

Beta 2.5

A brief introduction to the DP2400: The Proxima LCD projector offers 190 Ansi-Lumen and a VGA 640 x 480 resolution. The projector will be able to illuminate a picture width of 120 cm well. However, if room light is available, the image width should ideally not exceed 80 cm. The projector is no longer sold by the manufacturer. It should also be noted that there are unfortunately no more replacement lamps for the projector, neither originals nor replicas.
