

Ricoh PJ WUL6690

RICOH PJ WUL6690

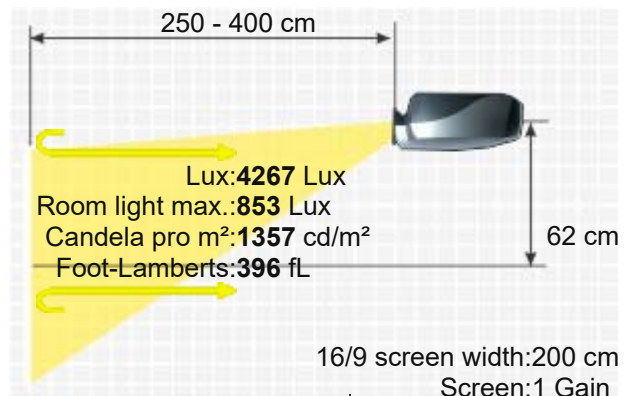

The Ricoh model PJ WUL6690 is a DLP laser projector with WUXGA 1920 x 1200 resolution and a contrast of 3380000:1. It is a laser projector with 20000 hours of light life, which is over 13.7 years with four hours of use per day. The projector also offers a lens shift function for flexible projection adjustment without loss of quality. An image width of up to 995 cm is possible as the projector has 9600 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 663 cm. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. Playing 1080P and 4K (compressed) is also no problem for the projector, which can even project Blu-rays onto the ceiling thanks to 360° projection. The operating noise of just 30 decibels makes the projection quiet.

1 x 0,67" DLP Chip
