

Ricoh PJ X6480

RICOH PJ X6480

The PJ X6480 DLP projector from Ricoh has 8800 Ansi lumens, a contrast of 750:1 and an XGA 1024 x 768 resolution. An image width of up to 817 cm is possible as the projector has 8800 Ansi lumens. The projector creates rooms with residual light with a smaller image width, max. 545 cm is recommended. In the event that the image is still too small, the projector offers integrated edge blending software, which allows several projectors to project a large image together. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. The projector can also play 1080P without any problems. Even projection onto the ceiling is possible thanks to the 360° projection. This model is no longer offered by Ricoh.
