

Roly RL-A500X

ROLY

LASER

Brief Introduction Beta 2.5

A brief introduction to the RL-A500X: the Roly Laser LCD projector offers 5000 ANSI lumens, a contrast ratio of 1500000:1 and XGA 1024 x 768 resolution. It is a laser projector with a 20000-hour light lifespan, which would be the equivalent of 13.7 years at 4 hours a day. Built-in horizontal and vertical keystone correction gives you more freedom when setting up the projector. A picture width of up to 551 cm is possible. If the picture width is smaller (we recommend max. 367 cm), rooms with low light are no problem. Video signals of 1080P are also no problem for the projector, and can thus project Blu-rays even onto the ceiling through the 360° projection.
