ROLY RL-600X

manufacturer Roly offers the RL-600X, an LCD laser projector with XGA 1024 x 768 resolution and a contrast of 3000000:1. Manufacturer Roly indicates a lifespan of 20000 hours, which would be the equivalent of 13.7 years at 4 hours a day. The lens shift function allows the projector to be set up very freely. An image width of up to 787 cm is possible because the projector has 6000 ANSI lumens. The projector can create rooms with low light with a smaller image width; we would recommend a maximum of 525 cm. Video signals 1080P are also no problem for the projector, and it even has the option of projecting HD 1080P Blu-rays onto the ceiling thanks to the 360° projection.

3 x 0,63" LCD Panel
