The standard portable TMX2000 LCD has 2000 Ansi lumens, a contrast of 350:1 and an XGA 1024 x 768 resolution. The horizontal and vertical keystone correction provides leeway when setting up. The projector can illuminate a picture width of up to 389 cm thanks to its 2000 Ansi lumens. In room lighting, however, the picture width should ideally be less than 259 cm. This model is no longer available from Saville.
