

Seseno HY300

SESENO HY300

The portable HY300 LED LCD game projector from Seseno has 160 Ansi lumens, a contrast of 1500:1 and an HDTV 1280 x 720 resolution. The manufacturer Seseno specifies a service life of 30000 hours, which is over 20.5 years if enjoyed for four hours a day. The projector also offers an integrated media player that can be used to play files directly. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. Thanks to the brightness of 160 Ansi lumens, a picture width of 129 cm is possible. In room light, the picture should be max. 86 cm wide. As the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Playing 1080P and 4K (compressed) is also no problem for the projector. At just 25 decibels, the device is one of the quieter projectors.
