The SIM2 EVSX1 standard portable DLP projector has 2000 Ansi lumens, a contrast of 2500:1 and an SXGA+ 1400 x 1050 resolution. The built-in lens shift and keystone correction function provides freedom when setting up. 389 cm image width, the projector will be able to illuminate well. However, if room light is available, the image width should ideally not exceed 259 cm. Even 1080P video signals are no problem for the projector. The model built in 2005 is no longer offered by SIM2. It should also be noted that, unfortunately, there are no longer any replacement lamps for the projector, neither originals nor replicas.
