

SIM2 HT250

SIM2 HT250

Brief Introduction

Beta 2.5

The SIM2 HT250 DLP projector has 900 Ansi lumens, a contrast of 600:1 and an XGA 1024 x 768 resolution. The lamp life is specified by the manufacturer as 6000 hours, which is over 8.2 years if enjoyed for two hours a day. The built-in lens shift and keystone correction function provides freedom when setting up. The projector can illuminate a picture width of up to 261 cm thanks to its 900 Ansi lumens. In room lighting, however, the picture width should ideally be less than 174 cm. The projector is no longer sold by the manufacturer.
