

SIM2 NERO 3D 2

SIM2 NERO 3D 2

Brief Introduction

Beta 2.5

The SIM2 NERO 3D 2 High-End Homecinema 3D BrilliantColor DLP projector has 2000 Ansi-Lumen, a contrast of 30000:1 and a WQXGA 2560 x 1600 resolution. Including a lens shift and keystone correction function, which provides freedom during installation. The projector can illuminate an image width of up to 389 cm thanks to its 2000 Ansi lumens. In room lighting, however, the picture width should ideally be less than 259 cm. Playing 1080P and 3D is also no problem for the projector. The model built in 2011 is no longer offered by SIM2, but is still very popular in our projector database. It should also be noted that, unfortunately, there are no longer any replacement lamps available for the projector, neither originals nor replicas.
