

Sonnoc SNP-LU740E

S O N N O C S N P - L U 7 4 0 E

The SNP-LU740E 3D laser DLP has 7400 Ansi lumens, a contrast of 300000:1 and a WUXGA 1920 x 1200 resolution. The manufacturer Sonnoc specifies a service life of 20000 hours, which is equivalent to over 13.7 years at 4 hours of operation. The projector can illuminate a screen width of up to 874 cm thanks to its 7400 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 583 cm. Video signals 1080P and 4K (compressed) as well as 3D are also no problem for the projector, meaning that all Blu-ray formats currently available can be recognized by the projector. At 30 decibels, the projector is very quiet compared to other projectors.

1 x DMD DLP Chip
