The SOPPY Z12 Standard Portable 3D LED LCD Projector has 320 ANSI lumens, a contrast ratio of 2000:1, and an HDTV 1920 x 1080 resolution. Manufacturer SOPPY specifies a service life of 25,000 hours, which would be over 17.1 years if viewed for 4 hours a day. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. The horizontal and vertical keystone correction allows the projector to be set up very freely. An image width of up to 182 cm is possible, as the projector has 320 ANSI lumens. However, if there is ambient light in the room, the image should be no more than 121 cm wide. The projector has Airplay and Miracast screen mirroring support, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. The model is also compatible with Full HD 1080P and 4K (compressed).
