

Soundcore Nebula P1i

SOUND CORE NEBULA P1i

The Nebula P1i at a glance: The Soundcore LED LCD projector offers 400 ANSI lumens, a contrast ratio of 1500:1, and HDTV 1920 x 1080 resolution. Thanks to its LEDs, the projector has a light life of up to 30,000 hours, which equates to over 20.5 years at 4 hours per day. Files can be played directly using the integrated media player. Horizontal and vertical keystone correction makes image setup childs play. The projector can illuminate a 174 cm image width well. However, if there is ambient light in the room, the image width should not exceed 116 cm. Google TV turns the projector into a smart entertainment center with countless functions. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Furthermore, the projector can play 1080P without any problems. The operating noise of only 29 decibels makes the projection quiet.
