Brief Introduction

Beta 2.5

A brief introduction to the 4K: The SROSS Standard Portable LED LCD Projector offers 340 ANSI lumens and an HDTV resolution of 1920 x 1080. Thanks to its LEDs, the projector has a light source lifespan of up to 30,000 hours ? which equates to over 20.5 years if used for four hours a day. With its 340 ANSI lumens, the projector can illuminate a screen width of up to 187 cm effectively. However, in brightly lit rooms, the image width should ideally be less than 125 cm. The projector supports AirPlay and Miracast screen mirroring, enabling high-resolution videos and surround sound to be streamed directly via Wi-Fi from smartphones, tablets and PCs running Android, Windows or iOS. Another notable feature is that the projector can be connected to external wireless speakers via its Bluetooth function. The projector also handles 1080p and 4K (compressed) video signals with ease.
