TECHNAXX TX-113

Brief Introduction

Beta 2.5

A brief introduction to the TX-113: The Technaxx Game-Portable LED LCD projector offers 108 Ansi-Lumen, a contrast of 2000:1 and a WVGA 800 x 480 resolution. The lifespan of the LEDs is 40,000 hours, which is equivalent to over 27.4 years at 4 hours per day. The projector also offers an integrated media player that can be used to play files directly. The horizontal and vertical keystone correction provides leeway when setting up. As Technaxx specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. 108 Ansi lumens ensure that a picture width of 106 cm is also possible. However, if room light is available, the picture should be a maximum of 71 cm wide. Playing 1080P is also no problem for the projector.

Display Type

1 x LCD TFT Panel
WVGA 16/9 Liquid Crystal Display

Ansi-Lumen

108 / 1800 Lumen
