The standard portable V28 LED LCD has 100 Ansi lumens, a contrast ratio of 5000:1 and an HDTV 1920 x 1080 resolution. The service life of the LEDs is 50,000 hours, which is the equivalent of 34.2 years at 4 hours a day. The projector can be set up in a variety of positions thanks to the horizontal and vertical keystone correction. 100 ANSI lumens ensure that an image width of 223 cm is also possible. However, if room lighting is present, the image should not exceed 149 cm in width. The model recognises Airplay and Miracast Screen Mirroring signals, making it possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via WLAN. In addition, the projector can be flexibly connected to other speakers thanks to the Bluetooth function. Furthermore, it is Full HD 1080P compatible.

1 x LCD TFT Panel
