

Toumei Q7

TOUMEI Q7

The Q7 LED LCD has 600 ANSI lumens and an HDTV resolution of 1920 x 1080. Thanks to the LEDs, the projector has a rated lamp life of 30,000 hours, which would equate to over 20.5 years based on 4 hours of daily use. 600 ANSI lumens ensure that an image width of up to 296 cm is possible. However, if there is ambient light in the room, the image should be no wider than 197 cm. With Google TV, the projector becomes a smart entertainment center with countless features. Since the projector supports AirPlay and Miracast screen mirroring, it is possible to stream high-resolution videos with surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. Additionally, Bluetooth connectivity is a useful feature for the projector, particularly for wireless audio transmission. Playing 1080p and 4K (compressed) content is also no problem for the projector.
