

Utimea Apollo Thor T50 Laser TV

ULTIMEA APOLLO THOR T50 LASER

The short-throw Utimea Apollo Thor T50 Laser TV 3D laser DLP projector has 3000 Ansi lumens, a contrast of 3000:1 and a UHD (4K2K) 3840 x 2160 resolution. Manufacturer Utimea specifies a service life of 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. The integrated media player can play files directly. As it is a short-throw projector, the projector can be placed very close to the wall. For a 2 m wide picture, the projector only needs to be 42 cm away from the screen. Thanks to the integrated Android TV software, it offers direct access to a variety of streaming services such as Netflix, Disney+, Amazon Prime Video and YouTube as well as games and other interactive content. The integrated Google Assistant turns the projector into a hub in the smart home, combining voice control and a wide range of functions. The projector has Chromecast, screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Even 1080P and 4K video signals are no problem for the projector. The operating noise of just 25 decibels makes the projection quiet.
