

Vamvo VF211 Mini Projector

VAMVO VF211 MINI PROJECTOR

The VF211 Mini Projector at a glance: The Vamvo LED LCD projector offers 150 ANSI lumens and HDTV 1280 x 720 resolution. It is an LED projector with a light life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. Horizontal and vertical keystone correction makes image setup a breeze. The projector can illuminate up to 124 cm of image width thanks to its 150 ANSI lumens. However, in room lighting, the image width should ideally be less than 83 cm. Since the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Even 1080P video signals are no problem for the projector.
