The Micro-Portable N5 Max LED LCD Projector from VenirCool has 400 ANSI lumens and an HDTV resolution of 1280 x 720. The manufacturer specifies an LED lifespan of 30,000 hours, which would equate to over 20.5 years at 4 hours per day. Horizontal and vertical keystone correction ensures effortless image setup. Thanks to its 400 ANSI lumens, the projector can effectively illuminate an image width of up to 174 cm. However, in room lighting, the image width should ideally be less than 116 cm. The model supports AirPlay and Miracast screen mirroring, allowing you to stream high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Additionally, thanks to its Bluetooth functionality, the projector can be easily paired with other speakers. Furthermore, the projector can play 1080p and 4K (compressed) content without any issues.
