

Viewsonic Pro10100SD

VIEWSONIC PRO10100SD

A brief introduction to the Viewsonic Pro10100SD. The DLP projector has an XGA 1024 x 768 resolution and a contrast ratio of 4400:1 (DCR). The projector also offers a lens shift function, which makes image adjustment child's play. Thanks to the brightness of 6000 Ansi lumens, a picture width of 675 cm is possible. The projector can also handle slightly brighter rooms with a narrower image width (we recommend max. 450 cm). Furthermore, the projector can play 1080P without any problems. Even projection onto the ceiling is possible thanks to the 360° projection. On the market since 2013, the model is no longer offered by the manufacturer Viewsonic, but is still a popular projector in our database.

Brief Introduction Beta 2.5
