

VISSPL Bluetooth Mini Beamer

VISSPL BLUETOOTH MINI BEAMER

A brief introduction to the VISSPL Bluetooth mini projector. The LCD LED projector has an HDTV 1920 x 1080 resolution and 900 Ansi lumens. The service life of the LEDs is 60,000 hours, which is equivalent to over 41.1 years at 4 hours per day. Horizontal and vertical keystone correction makes image adjustment childs play. As VISSPL specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. The projector can illuminate a picture width of up to 305 cm well thanks to the 900 Ansi lumens. In room lighting, however, the picture width should ideally be less than 203 cm. As the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Furthermore, the projector can play 1080P without any problems.

Brief Introduction

Beta 2.5

Display Type

1 x LCD TFT Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

300 / 15000 Lumen
