A brief introduction to the D803W 3D: The Vivitek 3D DLP projector offers 3600 Ansi lumens, a contrast of 5000:1 and a WXGA 1280 x 800 resolution. An image width of up to 610 cm is possible as the projector has 3600 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 407 cm. Even 1080P video signals are no problem for the projector. The model built in 2012 is no longer offered by Vivitek.
