VIVITEK DU5671

Brief Introduction

Beta 2.5

A brief introduction to the Vivitek DU5671. The DLP projector has a WUXGA 1920 x 1200 resolution and a contrast of 2000:1. The integrated lens shift gives freedom when positioning the projector. The projector can illuminate a screen width of up to 800 cm thanks to its 6200 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 533 cm. Furthermore, the projector can play 1080P and 3D without any problems. This model is no longer offered by Vivitek.
