

Vivitek DU9057Z /-BK

VIVITEK DU9057Z /-BK

Brief Introduction

Beta 2.5

The large-screen DU9057Z 3D laser DLP has 27000 Ansi lumens, a contrast of 3000000:1 and a WUXGA 1920 x 1200 resolution. The manufacturer Vivitek specifies a service life of 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. An image width of up to 1669 cm is possible, if the image width is smaller (we recommend max. 1113 cm), rooms with residual light are also no problem. In the event that the image is still too small, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Even 1080P video signals and 3D are no problem for the projector.
