

Vivitek Qumi Q3 Plus

VIVITEK QUMI Q3 PLUS

Brief Introduction

Beta 2.5

The Vivitek Qumi Q3 Plus DLP projector has 500 Ansi lumens, a contrast of 5000:1 and an HDTV 1280 x 720 resolution. 500 Ansi lumens ensure that a picture width of 227 cm is also possible. However, if room light is available, the picture should be a maximum of 151 cm wide. Thanks to the built-in 8000 mAh battery, no power supply is required for approx. 2 hours, allowing the projector to be set up quickly and flexibly. As the projector recognizes screen mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Even 1080P video signals are no problem for the projector. The model built in 2016 is no longer offered by Vivitek.

1 x 0,3" DLP Chip
