

Vivitek Qumi Q5

Brief Introduction

Beta 2.5

The Vivitek Qumi Q5 LED BrilliantColor DLP projector has 500 Ansi lumens, a contrast of 2500:1 and a WXGA 1280 x 800 resolution. The lifespan of the LEDs is 30000 hours, which is equivalent to over 20.5 years at 4 hours per day. The integrated media player allows files to be played directly. The projector will be able to illuminate the 227 cm picture width well. However, if room lighting is available, the image width should ideally not exceed 151 cm. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. The model is also Full HD 1080P compatible. On the market since 2012, the model is no longer offered by the manufacturer Vivitek.
