

VOPLLS Q1

VOPLLS Q1

The Micro-Portable Q1 LED LCD has 1000 ANSI lumens, a contrast ratio of 20000:1, and HDTV 1920 x 1080 resolution. The LEDs have a service life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. Since the projector has horizontal and vertical keystone correction, it can be set up with plenty of space in the room. 1000 ANSI lumens ensure that an image width of 321 cm is also possible. However, if there is ambient light in the room, the image should not exceed 214 cm in width. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. The model is also Full HD 1080P and 4K (compressed) compatible.

Brief Introduction Beta 2.5
