

Wanbo T2 Plus

WANBO T2 PLUS

Brief Introduction

Beta 2.5

A brief introduction to the T2 Plus: The Wanbo LED LCD projector offers 450 Ansi-Lumen and a HDTV 1920 x 1080 resolution. The lifespan of the LEDs is 30000 hours, which is equivalent to over 20.5 years at 4 hours per day. 216 cm image width, the projector will be able to illuminate well. However, if room light is available, the image width should ideally not exceed 144 cm. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. Google TV turns the projector into a versatile media hub that can be seamlessly integrated into a smart home. The projector has Airplay and Miracast screen mirroring support, which enables direct playback of high-resolution videos and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Even 1080P video signals are no problem for the projector.
