The Wielio model 18000 lumen mini projector is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 10000:1. It is an LED projector with 50000 hours of light life, which is 34.2 years if enjoyed for four hours a day. As Wielio specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. 334 cm image width, the projector will be able to illuminate well. If room light is available, however, the picture width should ideally not exceed 223 cm. The model recognizes DLNA, Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. It is also Full HD 1080P and 4K (compressed) compatible.
