

XGIMI MoGo Pro+

XGIMI MOGO PRO+

The XGIMI MoGo Pro+ 3D LED DLP projector has 300 Ansi lumens and an HDTV 1920 x 1080 resolution. Manufacturer XGIMI specifies a service life of 30000 hours, which is over 20.5 years with a daily viewing time of 4 hours. The horizontal and vertical keystone correction provides leeway when setting up. The projector can illuminate a picture width of up to 176 cm thanks to its 300 Ansi lumens. In room light, however, the image width should ideally be less than 117 cm. Thanks to the built-in 10400 mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. The model is also Full HD 1080P compatible. With only 30 decibels of operating noise, the model is already very quiet compared to others. It was launched in 2017 and is no longer offered by the manufacturer XGIMI, but is still one of the most popular projectors.
