

XGODY Gimbal3

XGODY GIMBAL3

The Gimbal3 LED LCD has 720 Ansi lumens, a contrast of 8000:1 and an HDTV 1280 x 720 resolution. The manufacturer specifies an LED service life of 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. The integrated media player allows files to be played directly. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. As XGODY specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. The projector can illuminate a screen width of up to 273 cm well thanks to the 720 Ansi lumens. In room lighting, however, the picture width should ideally be less than 182 cm. The projector has Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Playback of 1080P and 4K (compressed) is also no problem for the projector.

Brief Introduction Beta 2.5

Display Type

1 x LCD TFT Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

300 / 12000 Lumen

133 Lux (200 cm Screen width)

Contrast
