The standard portable K2s LCD projector from Yaber has 800 Ansi lumens and an HDTV 1920 x 1080 resolution. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. The projector can illuminate a picture width of up to 287 cm thanks to its 800 Ansi lumens. In room lighting, however, the picture width should ideally be less than 191 cm. The projector has screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. It is also Full HD 1080P and 4K (compressed) compatible.
