Y L E E G S E 1 1 0

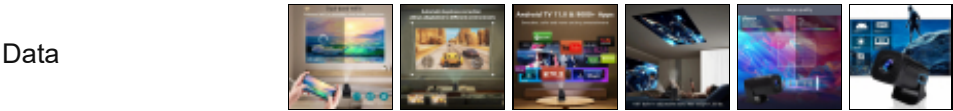

The yleegs model E110 is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast of 12000:1. The manufacturer specifies an LED lifespan of 30000 hours, which is over 20.5 years at four hours of use per day. Files can be played directly using the integrated media player. Since the projectors brightness is usually specified in lumens, we have calculated an approximate ANSI lumen value in this case. A picture width of up to 305 cm is possible because the projector has 900 ANSI lumens. However, if room lighting is present, the picture should be no wider than 203 cm. Since the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra to be mentioned is that the projector can be connected to external wireless speakers using the Bluetooth function. Playing 1080P is also no problem for the projector.
